Hope you are doing well Chris.

We are still working through the administrative side of getting the final ANP approval letter and attachments out the door. I was able to view all the information via Dropbox and have edited the letter and checklist appropriately.

Hopefully we will be getting this to you soon.

On a separate note, before I forget again, can you give me a brief update on the NCORE shelter implementation?

Thanks!

Hello Michael:

I was wondering when we might receive EPA's comments on the District's 2012 Network Monitoring Plan? I hope that you were able to view all of the District's QA information that was sent to you via DropBox. Please let me know whether you encountered any problems with reviewing the information and i will address them immediately.

We would like to get EPA's comments soon, if possible, as we need to begin work on the 2013 plan in order to get it through public review and then to EPA in July.

Thank you for your cooperation. Have a great day!

Sincerely,

Chris Lanane

Michael - Pick a time on the 6th. Preferably after 9:00.

Ted

Hello Michael:

February 6 would work well for me, as it does for Ted. Looking forward to our discussion.

Hi Ted,

As you may be aware, we are taking a closer look at annual network plans this year due to increased litigation risk (i.e. better documentation of our review) and have developed a detailed checklist that documents our review of the plans.

We would like to set up a meeting with you to share and discuss a draft checklist and the associated letter and attachments to get your thoughts on the process and address any comments or concerns you may have. We continue to view the development of these plans as a collaborative process and would really appreciate your feedback.

We are hoping to schedule a meeting the week of February 4th. Matt and myself are fairly on Monday and Wednesday.

Let me know if you are available or have any questions. Thanks!
